# The establishment

The Grasse Institute of Perfumery is located five minutes from the historical town center.

We welcome you to our establishment situated in a Provençal style house, built in the early 20<sup>th</sup> Century. You will find an ambience which is both warm and professional.

You will have at your disposal a large classroom including an application laboratory (perfumer's organ) and a collection of more than 500 raw materials.

Our lecturers are all confirmed perfumers from the prestigious companies such as Charabot, Firmenich, IFF, Mane, Robert..

# Training course

*Natural  
fragrances  
& cosmetics*

## Enrolment fees :

**2500 euros (materials, breaks and lunches included)**

For more than two centuries, Grasse has been regarded as the World Capital of natural raw materials for perfumery and cosmetics. With more than sixty specialized companies, Grasse remains today an essential focus for the international market of natural extracts.

## **First week** *Natural fragrances*

Discovers of the raw materials (history, culture, harvest, cost..).

Methods of extraction (distillation, solvents extraction, infusion...).

Practical work (olfaction).

Study of standard accords (aromatic & flowered Cologne\*, soliflore rose and jasmine \*, Cyprus, fern).

\*: accords given as an example, and may be modified

Natural perfume formulation (practical work).

Visit to growers and extraction plants (Centifolia rose in May, Grasse jasmine in September).

## **Second week** *Natural fragrances applications & cosmetics*

Application of essential oils for beauty and well-being.

From the fine fragrance to cosmetic application : how to adapt the fragrance to the support ?

Practical work : specific formulation for different supports. Candles, soap, shower gel, shampoo, body milk, body oil...

For each product type, formulation development, manufacturing considerations, and stability testing will be discussed.

From classical to natural and organic cosmetic. New concepts and formulation review.

## **Who we are**

Created in 2002 by Prodarom, the French Association of Fragrance Manufacturers, the aim of our establishment is to train student perfumers.

Our very close links with the local aromatic industry entitle us to offer very specialized training courses in the field of the natural products.

## **Organisation**

The sessions proceed either in May (Rose season) or in September (Jasmine season). Each session lasts 2 weeks, from Monday to Friday from 9 am to 5 pm, lunch included.

A map and a list of hotels and furnished accommodation will be send to you with the confirmation of your enrollment.
